The Crypto Games Conference is the world's largest and definitive business event for blockchain gaming professionals. For the third time over 1000 delegates and hundreds of companies from more than 30 countries will gather for two days action-packed with networking, learning and doing business.

Conference topics revolve around three segments of blockchain gaming – crypto games, iGaming, and gaming ecosystems and services.

Join the community of decision makers of the best crypto gaming companies from all over the world. Get deep insights on fundraising, regulatory considerations, marketing, blockchain centric game development and operations. Meet and mingle with bright minds behind paradigm bending products and services.

Key features:

- 1000+ professionals from over 30 countries
- 150+ gaming brands
- 100+ speakers in 3 business tracks of talks and panel discussions
- Expo zone to demonstrate products and services
- Series of legendary networking events
